

Energy Management Training for State Agencies and Higher Education

Workshop #1: The Business of Energy Management

A Tele-Workshop brought to you by:

***Colorado Governor's Office of
Energy Management and Conservation***

September 20, 2006

Energy Management Training

- Comprehensive monthly program series brought to you by expert energy managers
- Rotating themes of technologies (boilers, lighting systems, etc.), practices (LEED-EB, recommissioning, etc.), strategies for the season (tune-up for fall, get ready for winter, etc.),
- Tune in for monthly interactive sessions and join the “virtual network” of your peers
- Receive a certification of training documenting your participation
- For State agency and higher education staff
with something for everybody: facilities directors, HVAC technicians, maintenance staff, energy managers, decision-makers and others responsible for facility maintenance and improvements

The Business of Energy Management

Today's Topics

- 1. Introduction to Rebuild Colorado and Energy Management Training for State Agencies and Higher Education**
- 2. Dave Piatek, Department of Human Services**
- 3. Linda Kogan, University of Colorado-Colorado Springs**

Rebuild Colorado

**Round up
the savings...**

**to get better
buildings**

Identifying Opportunities

High energy bills?

Comfort problems?

Maintenance problems

Aging Equipment?

**Rebuild Colorado helps to identify and assess
energy-saving projects in buildings,
and helps make those projects a reality!**

Rebuild Colorado can help you choose a path that's right for you

High-performance building design?

Performance contracting?

Recommissioning?

Energy management?

Grants & in-house funding?

LEED?

Greening Government?

Rebuild Colorado can help you succeed

Free Customized Services for You....

New Building Design
